EXPERIENCE

Just Move In

Remote

Product Manager

2026 - Present

- Own the product end to end for a B2B2C marketplace moving **16K households a month**: find where revenue leaks, set the roadmap against it, ship and measure the fix.
- Shipped the digital move journey against a **£1M ARR target**, A/B tested in PostHog: broadband, energy and insurance deals fetched by API, personalising **580K mover journeys** and 40K+ emails at a 52.9% open rate.
- Turned Service Ops' 28-tab spreadsheet into an in-house ticketing product on HubSpot: 11 AI workflows classify 76K tickets/yr at 94% precision, **83% closing with no agent reply**; 9 agents absorb **2.8x the moves, averting £100-175K/yr in hires**.
- Founded **WorkOS** ↗, an internal AI product across **6 job functions**: Claude wired to 15+ production systems for user-acceptance testing, bug triage, data pipelines and every function's reporting; SSO-gated dashboards **replaced enterprise BI**.
- Shipped the funnel product for phone sales, its largest revenue channel: 1.4M call records stitched to 880K moves; the board attributes **~90% of phone revenue** through it.

Optimizely

Hybrid · Dhaka, Bangladesh · 2023 - 2026

Analytics Engineer, Product

2024 - 2026

- Built the churn and adoption product over **500K+ users, erasing \$5M of annual churn**, briefed quarterly to the CEO and Insight Partners; self-serve NLP agents retired **85% of ad-hoc requests**.
- Delivered the **Product Intelligence Platform** ↗, the system of record **10+ SaaS product teams** ship against, defining each product's L1 engagement and L2 feature-adoption metrics: 1.2M+ daily events, **70+ self-serving stakeholders**, an 8-step event-gating process.
- Set the frequentist and Bayesian experimentation standard product teams make ship/kill calls with: a 5K-impression gate at 80% power, and a **+16% qualification lift (58% to 74%)**, the cross-sell proof point: **Experimentation Science** ↗.
- Owned **Systems Architecture** ↗: recommended and drove the Mixpanel to warehouse-native migration across **8 product teams in 6 months**.
- Built the 3-layer warehouse behind it, 4 parallel ELT services with reverse ETL into Salesforce and Gainsight, and traced **80-90% of cost** to egress in a Snowflake-to-BigQuery review: **Data Engineering Foundation** ↗.

Senior Analyst, Go-To-Market Analytics

2023 - 2024

- Built the forecasting product behind C-suite KPI targets, delivering **12% YoY ARR growth, beating the DXP benchmark by 7%**, and cutting leadership decision time 30% over a \$50M+ pipeline.

Senior Analyst, Pricing Strategy & Operations

2023

- Re-priced a global DXP (100K+ B2B customers) from freemium to pay-per-use over 15+ A/B tests: 40% gross margin hit, LTV +28%, **\$12M upsell unlocked**.

Coto

Remote · Part-time

Analytics Consultant

2024 - 2025

- Shipped the partner-ranking product behind 3M+ consultations, TOPSIS-scoring 500+ partners (300+ verified) on 5 criteria for reward and retention, **raising expert quality 23%**: **Rank, Reward, Retain** ↗.
- Designed the dynamic pay engine holding **95% supply retention**: 30-90% revenue-share bands feeding the demand-supply engine for health scoring, surge pricing and AI escalation routing: **When Demand Exceeds Supply** ↗.

foodpanda | Delivery Hero

Dhaka, Bangladesh

Assistant Manager, Logistics & Analytics

2021 - 2023

- Owned last-mile operations on one of Bangladesh's largest consumer platforms: **2M+ monthly orders** across 5 verticals and 50+ ops stakeholders; ML fleet forecasting compounded 3% monthly KPI gains at **75%+ on-time** delivery.
- Shipped the return-order product, a daily compliance dashboard flipping cancelled-order billing across 2,200+ vendors: **€377K saved in a year**, food-quality complaints down 60.6%.
- Launched surge pricing across **64 cities**, generating **€100K+/mo incremental revenue and +21% basket size**; automated tooling and compliance penalties raised 16K-rider fleet performance 20%.
- Proved with a 27-variable regression that order stacking loses money past a 20-24% band, shipped as the **national dispatch policy**: **Cost-Benefit Optimization** ↗.

InsideMaps Inc

Mountain View, CA

Product Analyst

2020 - 2021

- Shipped a MongoDB store and search product over 10K+ HVAC assets, **cutting costs \$150K/yr** and raising project completion 20%; lifted efficacy 27% across 120 offshore operators on 3D tours.
