EXPERIENCE

Just Move In

Product Manager

Remote

2026 – Present

- Own product **end to end** for a **16K-moves/month** B2B2C marketplace – roadmap, analytics, experimentation and CRM – working daily with founders, Service Ops, Engineering and Growth.
- Building the **digital move journey** toward **£1M ARR in 6 months**: API-fed broadband, energy and insurance offers; first release put personalised deals into **40K+ mover emails**, A/B/C tested.
- Built the first **funnel analytics** for the largest revenue channel: **1.4M+ call records** joined to **880K+ moves**, reconciled to finance within **0.1%**; per-agent attribution covers **~90% of phone revenue**.
- Leading the **HubSpot service migration** with **9 AI classification and routing workflows** in production (**94% precision, 80% of tickets zero-touch**): absorbs **2.8x volume at flat headcount**, avoiding **£100-175K/yr** in hires.
- Founded **WorkOS**, the company's agentic operating layer: Claude wired to **15+ production systems**; **6 SSO-gated dashboards** replaced enterprise BI; **board-level what-ifs answered same day**.

Optimizely

Hybrid · Dhaka, Bangladesh · 2023 – 2026

Analytics Engineer, Product Analytics

2024 – 2026

- Delivered the **Product Intelligence Platform**, the system of record for product metrics: **1.2M+ daily events** across 10+ SaaS products, governed by an **8-step event-gating process**.
- Drove the **Mixpanel → warehouse-native migration** across **8 product teams**, from my recommendation to the Snowflake-egress cost case: **Systems Architecture**.
- Engineered the **3-layer warehouse**: 4 parallel ELT services, Kimball star schema, reverse ETL: **Data Engineering Foundation**.
- Cut annual churn **\$5M** with models over **500K+ users**, briefed quarterly to the **CEO and Insight Partners**; NLP agents eliminated **85% of ad-hoc analyst requests**.
- Set the **frequentist + Bayesian experimentation standard** behind ship/kill calls: 5K-impression gate (80% power), **+16% agent-qualification lift (58% → 74%)**: **Experimentation Science**.

Regional Analyst, Go-To-Market Analytics

2023 – 2024

- Set C-suite KPI targets by forecast – **12% YoY ARR growth, +7% over benchmark** – and cut leadership decision time **30%** with real-time Power BI over a **\$50M+ pipeline**.

Regional Analyst, Pricing Strategy & Operations

2023

- Re-priced a global DXP (**100K+ B2B customers**) from freemium to pay-per-use over **15+ A/B tests**: **40% gross margin hit, LTV +28%, \$12M upsell** unlocked.

Coto

Remote · Part-time

Analytics Consultant

2024 – 2025

- Improved expert quality **23%** across **3M+ consultations** with a TOPSIS ranking model scoring **500+ expert partners**: **Rank, Reward, Retain**.
- Held **95% supply retention** through scale-up with a dynamic pay engine: **30-90% revenue-share bands** plus performance multipliers.
- Built the **real-time demand-supply engine**: marketplace health scoring, surge pricing, incentive orchestration: **When Demand Exceeds Supply**.

foodpanda | Delivery Hero

Dhaka, Bangladesh

Assistant Manager, Logistics & Analytics

2021 – 2023

- Owned last-mile operations for 2M+ monthly orders** across 5 verticals; ML fleet forecasting compounded **3% monthly KPI gains at 75%+ on-time** delivery.
- Proved algorithmic order stacking loses money past a **20-24% band** (refunds outweigh rider savings); adopted as dispatch policy: **Cost-Benefit Optimization**.
- Generated **€100K+/mo incremental revenue** and **+21% basket size** with surge pricing across **64 cities**; raised **16K-rider fleet performance 20%**.

InsideMaps Inc

Mountain View, CA

Product Analyst

2020 – 2021

- Reduced operating costs **\$150K/yr** and raised project completion **20%** with a MongoDB asset store and search engine covering **10K+ HVAC assets**.
- Improved project efficacy **27%** leading quality control across **120 offshore operators** for 3D-tour delivery.
