EXPERIENCE

Just Move In Product Manager

Remote

2026 - Present

- Own the product end to end for a B2B2C marketplace moving **16K households a month**: find where revenue leaks through funnel analytics, set the roadmap against it, ship and measure the fix.
- Shipped the **digital move journey** against a **£1M ARR target**: broadband, energy and insurance deals fetched live by API, personalising **40K+ mover emails** to a **52.9% open rate**, A/B tested in PostHog.
- Shipped the **funnel product for phone sales**, its largest revenue channel: **1.4M call records** stitched to **880K moves**; the board attributes **~90% of phone revenue**, the daily digest coaching closers.
- Turned Service Ops' **28-tab spreadsheet** into an in-house ticketing product on HubSpot at **£0 spend**: **11 AI workflows** run the queue over a **12-article agent SOP** of know-how, edge cases and resolutions, classifying **76K tickets/yr** at **94% precision**, **83% closing with no agent reply**, and **17.9K supplier emails** auto-triaged. 9 agents now absorb **2.8x the moves**, averting **£100-175K/yr** in hires.
- Founded **WorkOS**, an internal AI product across **6 job functions**: Claude wired to **15+ production systems** for user-acceptance testing, bug triage, data pipelines and **every function's** reporting; **SSO-gated dashboards** replaced enterprise BI.

Optimizely

Hybrid · Dhaka, Bangladesh · 2023 - 2026

Analytics Engineer, Product

2024 - 2026

- Delivered the **Product Intelligence Platform**, the system of record **10+ SaaS product teams** ship against, defining each product's **L1 engagement metric**: **1.2M+ daily events**, **70+ self-serving stakeholders**, an **8-step event-gating process**.
- Owned **Systems Architecture**: recommended and drove the **Mixpanel to warehouse-native migration** across **8 product teams in 6 months**, built the **3-layer warehouse** (**4 parallel ELT services**, reverse ETL into Salesforce and Gainsight), and traced **80-90% of cost** to egress in a **Snowflake-to-BigQuery** review: [Data Engineering Foundation](#).
- Built the churn and adoption product over **500K+ users**, erasing **\$5M** of annual churn, briefed quarterly to the **CEO and Insight Partners**; shipped self-serve NLP agents that retired **85% of ad-hoc analyst requests**.
- Set the **frequentist and Bayesian experimentation standard** product teams make ship/kill calls with: a **5K-impression gate at 80% power** co-designed with the Experimentation PM, and a **+16% qualification lift (58% to 74%)**, the cross-sell proof point: [Experimentation Science](#).

Senior Analyst, Go-To-Market Analytics

2023 - 2024
